

Your Capstone is Waiting!

Once you've completed this course, you are eligible to enroll in the Capstone, the final installment in the Introduction to Project Management Principles and Practices on demand Specialization.

With the successful completion of the Capstone, you will earn a Coursera Specialization Certificate signifying your understanding of—and commitment to—the project management practice. In addition, you qualify for 35 Professional Development Units (PDUs).

You are on your way to earning a [Applied Project Management Certificate](#) from UC Irvine Division of Continuing Education and prepare for Project Management Professional® (PMP) certification, advance your project management skills, make a career transition into project management, and set the PM standard for excellence in your organization.
